

No shaver on the market comes close to the speed of Snowie's Ice Shavers. Our shavers are simply the fastest, easiest to use, and most reliable shavers ever produced. We have completely reinvented the cube shaver to produce the fluffiest shaved ice yet. Just pour regular ice into the easy load hopper, step on the safe air foot pedal and out comes snow that truly rivals mother nature. These shavers are designed to shave avalanche after avalanche all year long. Forget about those "old fashioned" block ice shavers with their rattling doors, sharp, exposed blades, and fine tuning. Try a Snowie shaver and see what the next millennium of shaved ice technology has to offer! Our shavers include a one year limited warranty against manufacturer defects. All Shavers are NSF approved. Electrical components are UL approved.

Snowie 1000 The 1000 Shaver is perfect for those places that don't require the high volume, and are tight on space. This is the perfect shaver for adding Snowies to an existing business. Shaves a 32 oz. serving in seconds.

Snowie 3000 The 3000 Shaves more fluffy Snowies per minute than any other shaver on the market. If you have a high volume business this is the shaver for you. Shaved and entire 8 pound bag in just over a minute.
